

## **Preliminary Proposal for Low-Fee Supervision**

This proposal is for free supervision for LQP candidates who are seeing up to 4 analysts for a low fee (\$50 or less) that come through the referral service. Should the fee be raised during the ongoing treatment above \$50, free supervision should still continue. The main thing is that the analysts seen by the candidate came through the referral service and started out paying \$50 or less. Free supervision will only be available for the first four years of training. Once the candidate has more than 4 low-fee paying analysts, they must choose a second supervisor to be paid. A year of free supervision means one academic year.

- Only analysts who are eligible to supervise (those having been graduated for at least 5 years) are able to volunteer one hour a week of supervision for one year.
- Free supervision should only be available for the first four years of training.
- A list of analysts willing to donate one hour of free supervision a week for one year be compiled for candidates.
- IAAP Candidates: Free supervision will only be offered to LQP candidates first, but if an analyst is willing to donate an hour of free supervision for an academic year to an IAAP candidate, this would be acceptable too, but only after placement of LQP candidates has been completed.
